

# Winter Home Learning Challenge

Draw a picture of someone dressed for a cold winter day.

On winter mornings, the ground often looks white with frost. Ask a grown up to help you investigate the frost and find out what it is and where it comes from.

Sammy squirrel hid 3 nuts for the winter. He has already eaten 2 of them. How many nuts has he got left? You could draw a picture or use your fingers to help you work out the answer.

Go on a winter walk with a grown-up and look around to see the things that have changed since the summer.
